Wood products offer long-term carbon storage for construction

Pulp and other bioproducts

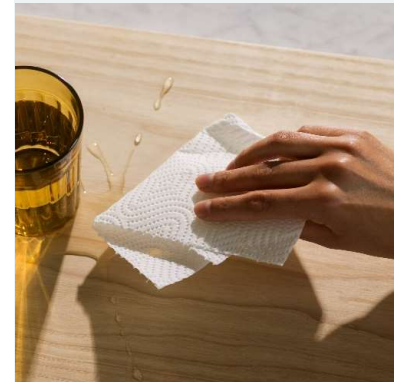

Pulp and other bioproducts for raw material for consumer products

Paperboards

Lightweight and strong packaging boards offer alternatives to plastic

Tissue papers

Tissue and greaseproof papers for a cleaner everyday

Our ownership base is our competitive advantage

- Our parent company Metsäliitto Cooperative is owned by Finnish forest owners.
- Our owner-members grow their forests sustainably from one generation to the next, creating a solid foundation for profitable and responsible business.
- We use high-quality wood raw materials sourced mainly from our owner-members' forests. We increase the value of the Finnish forests together while respecting nature.

The members of Metsäliitto Cooperative, Metsä Group's parent company, own over a half of Finland's private forests.

Metsä

Being a forerunner requires investment

Metsä Group is in a period of profitable growth. Our completed, ongoing and planned investments since 2015 total more than **seven billion euros**.

Our sustainability targets for 2030

We have renewed our sustainability targets extending to 2030, which are based on the UN Sustainable Development Goals. We are committed to safeguarding biodiversity, mitigating climate change, using natural resources sustainably and operating ethically.

Environment

We safeguard biodiversity.

We mitigate climate change.

We decrease emissions.

We use raw materials efficiently.

We decrease the amount of waste.

Social

We do the right thing.

We promote safety and wellbeing at work.

Governance

We know the origin of our raw materials.

We favour responsible suppliers in our procurement.
